Welcome Back

No one wants summer to come to an end, but in just 8 months summer will return. For now our new school year has begun, and it's time to set new personal goals to achieve through the year. We need to become better students, leaders and motivators in our schools and among the student bodies. The NJASC wishes you a great school year.

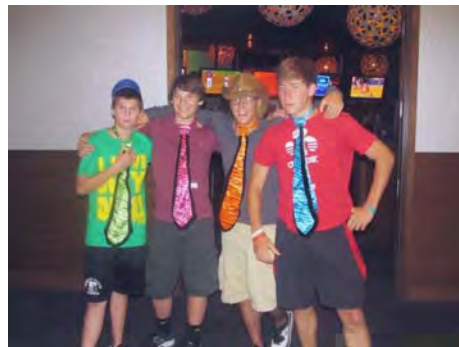

During the summer 17 outstanding leaders representing New Jersey, including your state officers, went to the NASC National Conference in Oklahoma City. It was an exciting week of meeting new people, attending seminars, and learning new ideas for our schools.

Two weeks later student leaders from all over New Jersey joined our state officers at the 57th annual Leadership Training Conference at TCNJ. Through these next pages, you be able to acquire a picture of all the summer fun.

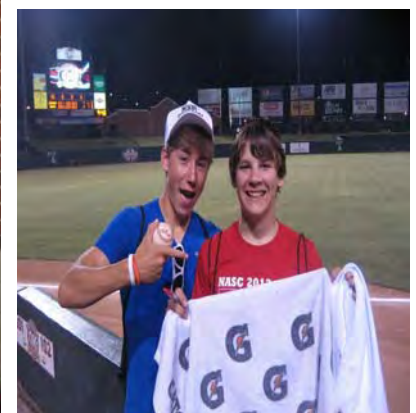

Nationals

On June 22-27, 17 state leaders visited Oklahoma City for the NASC National Conference. The conference was held at Yukon High School. Upon attending the conference, we saw a OKC Red Hawks baseball game, visited the Oklahoma City Memorial, and experienced a Rodeo Opera, where Pat and Rachel had an opportunity to square dance. Also, we went to the Oklahoma City Zoo went to Dave and Busters, and plenty of shopping.

Nationals was a terrific way to share ideas with students from all over the country. Each one of us grew as leaders through the different seminars, workshops and interacting with other state delegates. Nationals will stay in our hearts for ever.

Leadership Training Conference

Moving on in our busy summer, we hosted the 57th Annual Leadership Training Conference. This year we had over 280 delegates join us at LTC to become better leaders.

LTC was a great way to meet new people and have fun while being yourself. Also, it is an enjoyable way to become better leaders through workshops about becoming a good public speaker, learning different styles of leadership, working with others to accomplish goals, and finally bringing leadership back to your schools.

We will never forget the new friends we made, the crazy games we played, the late nights, the creative skit and most importantly the leadership skills we developed. LTC has SWAG! Hope to see you there next year!

State Charity

Hugs for
Brady
FOUNDATION

Helping Kids with Cancer,
One Hug at a Time...

The Hugs for Brady foundation is dedicated to helping children with pediatric cancer, since their son Brady died at 18 months of cancer. Their mission is directed to assist children with cancer in any and every way possible. It is a 100% volunteer and non-profit organization that helps children of all races, creeds, and religions. They do not discriminate. With the money we raise for Hugs for Brady, they will be able to hire another research doctor, who will help eliminate cancer. They support all causes concerning pediatric cancer. Their ultimate goal is to eradicate pediatric cancer, and they will not rest until pediatric cancer of all types is a forgotten nightmare. You can aid in ending this nightmare by donating time, money, blood and platelets.
